This year, sponsor two for one! Fusion Partnerships hosts two annual events and you can be a part of them both!

Founders Day is an annual celebration honoring the foundation Fusion is built on and celebrating the collective future we are moving toward.

The inFusion Film Festival is a celebration of community through art & film and every year brings an amazing lineup of artists and filmmakers together to recognize them and their contributions to Baltimore.
Through collaborative action, including fiscal sponsorship, facilitation, and community grantmaking, Fusion Partnerships works as a catalyst for social justice and peace.

Fusion’s vision is to create a Baltimore where everyone has equitable access to resources and opportunities. We serve as an inclusive solution that protects and nurtures small innovative organizations and initiatives.
